

Broaster® E-Series Pressure Fryer - 24G

Featured Innovations

- Highest Energy Efficiency in Pressure Fryer Category gas-fueled E-Series 24G boasts the highest-level energy efficiency burner systems (75,000 BTU/hr), offering greater than 21% less gas usage when compared to the legacy Broaster 2400 model. Ready for Energy Star application once EPA has established standards for pressure fryers.
- Auto-Lift Feature reduces need to lift heavy basket providing a safer and operationally friendly work environment, making it easier to handle a large quantity of chicken.
- Shelving & Rack System 4 shelves provide even cooking and product appearance and safer operator ergonomics.
- One-touch Cook Cycle cook cycle starts automatically with lid closure, no need to hit "Start"
- Automatic Controlled Pressure Release end of cook cycle automatically triggers release of pressure within the cooking well, can be programmed for soft, controlled release.
- *More Production Capacity* the largest 8 piece capacity amongst pressure fryers. Elimination of a long manual oil filtration paired with an enhanced burner system means faster heat recovery and more fry time.

- Automatic Oil Filtration Between Cook Cycles – unit automatically begins a quick filtration cycle after each cook cycle. Expect weeks of oil life compared to days of oil life in traditional units.
- Smartdrain Technology detects obstructions during draining and recognizes if crumb buildup is inhibiting the flow of oil.
- On Board Oil Replenishment ability to top fryer oil off easily based on operator need.
- *Bulk Oil Handling* easily connects to bulk oil input and discharge systems to eliminate employee handling of oil.
- Advanced Microprocessor Controller easy-to-use, touch screen interface reduces training time for new employees. Bilingual interface included.

Safety Features

Triple-redundant safety system is featured consisting of a chrome plated relief valve, a smooth, articulating stainless steel splash guard and a single action patented cam lock cover system.

To ensure operator convenience and safety, unit features a pressure activated cover-locking mechanism and the SmartTouch Controller which integrates an automatic pressure regulator valve, exhaust valve, and drain valve interlock. Standard setup includes on-board oil replenishment for easy oil addition.

Available bulk oil handling connections eliminate the need for employees to handle heavy oil containers and dispose of hot oil.

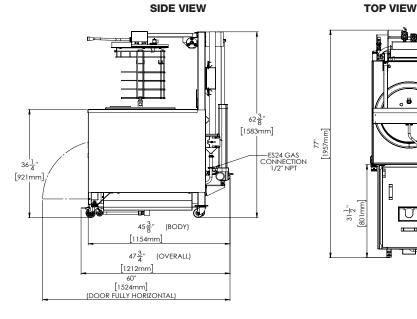

Unique carriage & shelving system allows easier loading and unloading of product.

A maximum of two screws allows access to any part of the machine, making it quick and easy to service.

Dimensions

Model	Fresh Chicken Capacity	Cooking Oil Capacity	Operating Pressure	Overall Dimensions			Counter Height	Net/Ship Weight
ES24G	26 lbs. (64 pcs/8 hds)	70 lbs.	12 - 14 P.S.I.	W 25.5"	D 48"	H 62.5"	36.25" (922 mm)	600/650 lbs.
				(647 mm)	(1220 mm)	(1586 mm)		

Additional Features

Specifically designed for high volume production, cooks up to 64 pieces of fresh bone-in chicken per load in as little as 11-12 minutes when using round, 8 head shelves.

Two options for shelving configurations to match your back-of house process; individual shelves available in 1 inch or 2 inch heights.

Unique Auto Comp feature automatically adjusts cooking time to accommodate for varying sizes and temperatures of loads.

Perfect for all your fried chicken cooking needs, including hand breaded tenders and fillets.

Primary construction is of stainless steel built on black powdercoated steel frame with front and rear casters for mobility and ease of cleaning.

Proven round cooking well design engineered for more uniform heat distribution, durability and efficiency; no cold spots or corners. Large capacity provides more room for product, minimizes sticking and produces delicious, superior quality food.

Fully welded cooking well is made from durable 300 series stainless steel.

Specifications subject to change without notice.

Energy Requirements

75,000 BTU/hr 1 phase, 120 volt, 60 hz,15 amp service Attached 6 ft. cord with plug

Mainfold Pressure: Natural Gas: 3.5 in-wc LP Gas: 10 in-wc

Ready for Energy Star application once the EPA has established standards for pressure fryers.

Accessories and Options

Unit Ships Standard With:

One rack, a complete set of four shelves and two handles.

Choose Between:

1 inch height or 2 inch height sides Both are round and hold 2 head per shelf

11/23
